What if the item I have purchased is faulty?

We take extreme care in ensuring our goods are of the highest quality. However, if for any reason you find a fault with one of our products, you will be entitled to the following remedies under the Australian Consumer Law:

1. Refund of products for major failure or faults; or
2. Refund if the product fails to be of acceptable quality and the failure is not a major failure.

In assessing a claim for faulty products, the Australian Consumer Law allows us to take into account how much time has passed since you bought the product, how the product has been used, the length of time for which it is reasonable for the product to be used and the amount of use the product could reasonably be expected to tolerate before the failure becomes noticeable.

If you believe you have received a faulty product or there has been an error with your shipping, please contact our customer support team at online@midford.com.au. We will cover all associated shipping costs in the event of a faulty product or an order error on our behalf.
